

HOSTED DOWNLOAD MANAGEMENT

Introducing POS Portal HDM—A simple service that gets you Ready for Download!

With POS Portal Hosted Download Management service, we host your download files, you control the process. Multiple handoffs cause delays and errors—ultimately costing you time and money. POS Portal's HDM is the only cost-effective solution that allows you to take control of your downloads. We host the infrastructure, certify applications, and manage templates so that you can activate your merchants!

POS Portal HDM Service Provides

- Faster Merchant Activation
- Reduced Error Rates
- More Visibility and Control of Your Merchant Portfolio

Build files on Hypercom and VeriFone with an easy-to-use, web interface. We handle VeriCentre, Term-Master, and NURIT CC, while you grow your portfolio! POS Portal HDM is a new service that allows you to take control of your file building process with minimal investment and no long-term commitment.

INCREASE CONTROL,
IMPROVE OPERATIONS

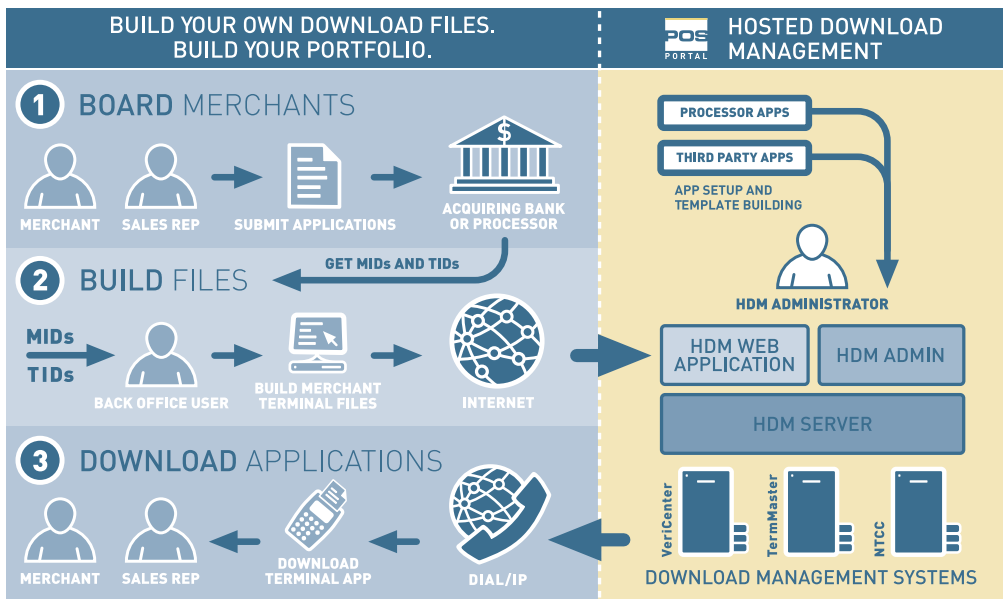

LOWER COSTS		INCREASED REVENUE	
REDUCE FILE BUILD ERRORS	INCREASE VISIBILITY AND CONTROL	IMPROVE SPEED OF SET-UP	

QUICK MERCHANT ACTIVATION

Take control of your downloads and activate your merchants quickly. The sooner your merchant is processing, the sooner you get paid.

REDUCE ERROR RATES

When you send your file builds someplace else you introduce opportunities for mistakes. Build your own files and eliminate a point of failure. When mistakes do happen, you can fix them right away.

HOSTED DOWNLOAD MANAGEMENT
